

This Week

By Arthur Brisbane
Warning to Arabs
To Improve Marriage
Pittsburgh's Big Day
Wise Young Dinosaur

Britain has made the Arabs understand that murder is not a safe pastime under a British mandate.
At Malta three Arabs were sentenced to death by Chief Justice Sir Michael MacDonnell for causing the death of Isaac Maman.
The men convicted and Arabs witnessing the trial called upon Allah to witness it.
Allah didn't say anything.

He was missing from the scene, as angels were once missing in Constantinople. Christians had been assured that at the last moment if the Turks took Constantinople angels would appear in the square before the Church of St. Sofia and smile them.

Turks took Constantinople, have held the city through all the centuries since. No angels have appeared.

Moral: If you want anything done, don't depend on Allah.

Great Britain proposes to bar from marriage the "mentally unfit." That might improve the human race, if you could identify the mentally unfit with certainty.

Some unfit will be exempt from matrimonial ostracism because they possess fortunes or important titles or names.

Others mentally unfit will escape because they are only dull, belonging to the negative class that Dante put into one of hell's disagreeable compartments.

Pittsburgh held a big celebration and fair good reasons.

Fifty years ago you could wade across the Ohio river in many places with water no higher than your knees.

Now the government has built five dams, costing \$19,000,000, giving at least nine feet of water enough for boats all year round throughout the 1,000 miles of stream between Pittsburgh and the Mississippi.

Ohio river traffic has increased in twelve years from 4,900,000 to 20,900,000 tons.

The river now makes possible a saving of \$20,000,000 a year in freight charges.

Overwork is not so dangerous but violent emotion is extremely dangerous, says Dr. C. P. Emerson, learned student of the human body. "A strong emotion can inflict a physical injury, just as truly as can a knife," says the doctor.

However, a life that amounts to anything is made up of strong emotions.

A giant turtle on the Galapagos Islands never has strong emotions and lives five or six hundred years. But who would be a Galapagos turtle? Better be Keats, Alexander, or Napoleon.

Samuel Insull, Jr., following in his father's industrial dinosaur tracks, as president of the Midland United Company of Chicago, tells the American Gas Association that to boom the gas industry and increase sales they must cut prices, and use "persuasive advertising and proper salesmanship."

If young Mr. Insull follows out these ideas he will be a big industrial dinosaur some day.
Mr. Lamont, "the" Mr. Lamont, says business is good and will continue good. Gerard Swope, president of General Electric, says "Ames" and means it. Orders received by his company for the three months ending September 30 were \$110,688,014, against \$90,292,000 in the same period last year. That increase of 29 per cent has prevailed throughout the entire year.

Madame Curie, who helped the discovery of radium, comes here to accept the new Radium Institute at Washington; one gram of radium, costing \$40,000, paid for by American women.
You could put in a small valise radium worth more than all the wealth of Rockefeller, Ford, Secretary Mellon and George F. Baker combined, if such a radium quantity existed.

One sin, with its source of terrific energy only guessed at by science, may contain millions of tons of radium.

We can't get at that. But we might give some children the benefit of the sin, which is accessible and costless.

Dr. Frederick Thney, professor of medicine at Columbia university, says that a headache is a message. There are sixteen different kinds of headaches, all requiring different care and understanding. Headaches often come from worry. You should be cautious about taking medicine to kill a headache. It may kill the headache, while the poison that enters the headache continues working to kill you.

The Canadian, Ramsey MacDonald, leader of the Socialist party, advised voters to vote for the party that would be made by evolution, not by revolution. That's how they made the world in the past.

DENIES RETRIAL OF WOOD WILL CASE

Motion for retrial of the contested Mary J. Wood will case was heard at a special session of Circuit Court before Judge Guy E. Smith Tuesday at which time the motion was denied.
This case, which was an appeal from Probate Court, was retried in the July term of Circuit court, and involved the validity of the will, and claiming another will to be the genuine. The will that was accepted by the Probate court named as beneficiaries Albert G. Lincoln of Detroit, Mich., and Jennie Huston of Oxford. The other will named Wm. F. Austin, Henry Brennan and Leo Richardson, business associates of the former William Wood of the William Wood Construction Co. of Detroit. The jury in its verdict sustained the opinion of the Probate court.

In the motion for a new trial a resolution was filed claiming new evidence that had it been submitted in the trial, might have influenced the jury otherwise. And further, exception was taken to the charge of the court to the jury.

The Austin interests were represented by Frank Eaman and David Crowley of Detroit and the Lincoln-Huston interests by Lodge & Brown, also of Detroit. It is very likely that the case, with its mass of testimony will be appealed to the supreme court. It is possible that that court may order the case retried.

WAITING FOR GEORGE TO DO IT

The State of Michigan has moved one of its asphalt plants to Grayling where it will remain until the asphalt is laid on the highways around there.

The plant will employ about a hundred men, and the work may take a year or two. Grayling is to be congratulated on its "up and at 'em" spirit, for they are always looking for something new. The additional payroll and residents to that town for the next year or so will mean a lot, and is a mighty good investment for the effort put forth by the boosters of that community.

There is still another asphalt plant to be located somewhere in northern Michigan along U. S. 27, that will be as large as the one at Grayling. Some town is going to get it. Ross Jackson, secretary of the County Road Commission has been making an effort to get local people interested enough to make a trip to Lansing regarding this, for it seems that anything that is worth having is worth going after, and besides it appears that it takes a delegation to have any influence at Lansing. Thus far the idea has not aroused much enthusiasm. Evidently everyone is waiting for "George" to do it, but we have no authority for that. "George" hasn't any more time than Dick, but that he will go if there will be enough others to climb in the wagon and forget their private business for a day. —Gaylord Herald Times.

This is work for a well organized Board of Trade and the people of every community should support one with their cash and their loyalty. Of course it costs money but it is worth it.
Ice which has not melted since the Pleistocene Age has been found by McMillan in the Arctic. We must get after our ice man to leave this type on the porch next July. —Detroit News.

This is the time of year many a father has to buckle down and start working his son's way through college. The colors green and red, Millie, —New York Evening Post.

Incidentally, everyone is waiting for "George" to do it, but we have no authority for that. "George" hasn't any more time than Dick, but that he will go if there will be enough others to climb in the wagon and forget their private business for a day. —Gaylord Herald Times.

THE REPORT CARD

(By Grayling Public Schools)

Debate Teams Chosen

The two teams have been selected to represent Grayling in the Michigan Debating League this year. It took some time to select six competent debaters and one alternate but they have finally been chosen and are working hard on their material.

The teams are:
Affirmative—Elizabeth Matson, Jessie Lytle, Thorwald Sorenson.
Negative—Margaret Warren, Mary Mahneke, Jerome Kesseler.
Alternate—Jack Zeder.
Mr. Hill, coach, has not yet been notified as to which team will debate first, but expects to hear in the near future.

Merits for special merit work was awarded to the following people for their executive ability during the past six weeks. Mr. LaBarge made the presentation.

Effie Hunter, Eleanor Gorman, Jane Keyport, Grace Parker, Helen Lietz, Donald Emery, Arthur Curnalia, Kathryn Malling, Loretta Sorenson, Wilma Burrows, Virginia Engel, Myron Burrows, Matilda Engel, Emil Kraus, Eileen Ferguson, Ella Fehr.
Honorable mention was awarded to the following:

Elizabeth Kraus, Beverly Schiabe, Jean Peterson, Clara Atkinson, Eva Mae Bugby, Robert LaMotte, Wilma Atwell, Billy McLeod, Elaine McDonald, Carlisle Barber, Elaine Reagen, Elma Mae Sorenson, Noreen LaBarge, Viola Kennedy, Jean Thorne, Marian Hanson, Betty Welsh, Helen Pond, Karl Sherman, Harry Weiss, Mildred Hanson, Farrell Gorman, Fern Chalk, Ruth Mack, Leona Markby, Arthur May, Helen Woodburn, Ruddy Harrison, Dorothy Hoall, Margaret Warren, Frances May, Hyacinth Brown.
Jokes

Rudy: What are you wearing all those coats for?

Hilary: I'm gonna paint my Ford and the directions are that in order to get best results, put on three coats.

Miss Estee: What's your idea of civilization?

Don K.: I think it's a good idea, someone ought to start it.

Art May (in trouble): Tell all you know, it won't take long.

Dot: Hoesli—I'll tell all we both know. It won't take any longer.

Anna H.: He's so romantic, whenever he speaks to me he starts like this, "Fair lady."

Bunny M.: Oh that's just force of habit, he used to be a street car conductor.

Mr. Hill—What are you people laughing at? Are you laughing at me?

Students—No.
Mr. Hill—Well, what else is there to laugh at?

Floyd L.: How did you puncture that tire?

Harry W.: I ran over a milk bottle. F. L.: But couldn't you see it?
H. W.: No, the kid had it under his coat.

Juniors Hold Contest

The Junior class has entered a contest between themselves for the purpose of raising funds for the class treasury. Last Monday morning a representative of the Curtis Publishing Company visited the school soliciting subscriptions for the three magazines published by that firm. The class was divided into sides and leaders chosen. The sides are distinguished by the colors green and red, Millie, —New York Evening Post.

Your Own Home Town

If you want the place in which you live to be a place in which it's good to live it is up to you to do all you can to make it so. If you do all you can to make it a good place to live in and the other fellow does the same, then no one will need to complain. To do that though, you will have to be loyal to it, stick up for it, boost it and fight for it. But that is only part of it, you'll also have to do a great deal of hard work for it.

EVERYONE SHOULD VISIT POTATO SHOW

AT GAYLORD OCT. 30, 31, NOV. 1

Considerable activity is taking place around the 4-H Club buildings at Gaylord in preparation for the Seventh Annual Top O' Michigan Potato and Apple Show which will be held there next week, October 30, 31 and November 1 inclusive.

Most everyone who is interested in exhibiting at this Show has already made plans to take some potatoes or apples over next week or has sent them to be set up. There are thousands of farmers in the Top O' Michigan territory, however, who have never seen this Show, but have heard about it thru the columns of the newspapers. We would urge that every person, whether a grower of potatoes or apples or not, spend at least one day at the Show this year to find out what this Association is doing to put Northern Michigan to the front as the leading potato and apple section of the United States.

Two banquets will be held, one at noon Wednesday and one at 6:30 Thursday evening. A. G. Tolosa, potato specialist of Minnesota; E. B. Tussing, potato specialist of Ohio; and C. M. McGarry, potato specialist of Michigan will talk to the certified seed growers on Wednesday noon.

Anyone desiring to attend this luncheon should notify the Secretary by Monday, October 28th.

Several new contests have been entered this year which should attract many additional exhibitors. The 4-H Club program on Thursday afternoon has been arranged especially for boys and girls both in Club work and in Smith-Hughes schools. Plan now to take the entire family down to Gaylord on October 30, 31 and November 1 and get in step with the greatest institution of Northern Michigan.

The remains were brought to Grayling the following Friday and laid to rest in Elmwood cemetery.

Nettie Scott was born at Delta, Ohio, July 3, 1883. Her father passed away while she was in her infancy, of typhoid fever contracted while serving in the Civil war. At the age of five years she accompanied her mother to Isabella, County, Michigan, where seven years later her mother passed away, then she went to make her home with an uncle.

In 1878 she was united in marriage to Benjamin F. Sherman and the following year they moved to a homestead in Maple Forest, Crawford County. At that time only a trail marked the way from Frederic to the farm 4 1/2 miles east. They resided there with the exception of short periods at Charlevoix and Grayling until Mr. Sherman's death April 26, 1922. In 1926 a small home was purchased on Chestnut street in Grayling where Mrs. Sherman had resided. Mr. and Mrs. Sherman were the parents of ten children, seven of whom survive, Mrs. Alta McMillan, Danville, Ill.; Mrs. Effie Wright, Mrs. Emma Seidel, Detroit; Merrell Sherman of Mancelona; Jerry of Grayling; Lee of Saginaw and Clayton of Flint.

Mrs. Sherman was cherished by her children who saw to it that she had every comfort. She also had hosts of friends who were grieved to learn of her sad demise.

A Dutch visitor says that we have nothing in America to compare with the windmills in Holland. He ought to be here when some of our state legislatures are in session.

Remember the good old days when you believed that the villain in the melodrama was as bad as he pretended to be and that the heroine was as innocent as she pretended to be?

They Have a Choice Now-Days

SYMPATHY SHOWN BY MAIDEN AUNT, FOR NIECE WHO IS UNABLE TO DECIDE BETWEEN THREE PROPOSALS

Michigan Memorial Church

John Wilfred Greenwood, Minister

Sunday, October 27, 1929
10:30 a. m. "A prophet's doubts."
7:30 p. m. "The life of Thomas Edison."

I Never Go To Church
(Dedicated to all my friends who can get along without the CHURCH).
I never go to church, you know, Unless a friend has died; And then I go, because it is The thing that stirs my pride!

For many things we have to do, Since customs they decree; And being there when others cry Is interesting to me.

Of course it often happens, That I go there once a year. The preacher would die of fright If I oft I did appear.

And yet today they're telling me The preacher's feelin' blue, Because men fish, play golf, and ride Instead of coming too.

To church with all the women folks Who like those kind of things; Who always know the theme and text And how the choir sings!

And lately I've been troubled For I've been sensing blues Of how I'd feel if I were he Addressing empty pews.

Of how most men are so unfair When only we attend When folks are broken-hearted like A buryin' their friend!
—By J. W. Greenwood.

WILDFLOWER PROTECTION

Wisconsin is the first among the Mid-Western states to enact a law protecting the rarest of its wildflowers. The law is designed principally to stop the indiscriminate destruction of trailing arbutus and several species of wild orchids.

Wisconsin, like Michigan, has found that the automobile has brought the most inaccessible bits of woodland right to the front door of her residents and the temptation to gather great clusters of rare wildflowers could not be resisted. This has resulted in the disappearance of a number of varieties from their woodland haunts and nature has no way to bring about a restoration.

Michigan on three different occasions attempted to enact legislation to protect bitter-sweet, dogwood, arbutus, orchids and certain ferns but the bills held no interest for the lawmakers. Like the long, drawn-out fight to secure protection for migratory birds, wildflower protection will not come until those who are charged with our law making know something about wildflowers and how easy it is to wipe out delicate and desirable species. It is a pity to observe the unrestricted picking of trailing arbutus throughout the north country in early spring. Extensive patches are wiped out by those who uproot plants in their mad scramble after this fragrant wildling.

Michigan needs some sort of a law bringing reasonable protection to wildflowers. If this isn't realized within the next few years many of our finest varieties will live only as memories. —Detroit News.

Of course it may be true that the modern youth smokes too many cigarettes but do you remember how, in the good old days, they used to chew their tobacco?

A driverless motor car has been invented and now we can stay safely at home on Sunday while the car goes out to get itself into accidents. —The Jerseyman.

COMING

Dr. A. S. Allard, optometrist of 228 Shearer Bldg., Bay City, will again be in Grayling at Shoppengons Inn, Wednesday, Oct. 30th.

Children's eyes need frequent attention. Bring them in and make sure they are getting an equal chance in school.

Eyes examined and glasses fitted that give results. 20 years of making glasses for folks of northern Michigan.

Remember the date, Grayling, at Shoppengons Inn, Wednesday, Oct. 30th.

DR. A. S. ALLARD, Optometrist.

WILL IMMUNIZE AGAINST DIPHTHERIA

Next Wednesday the first of the three doses of toxin-antitoxin necessary for immunization against diphtheria will be given at the school building. All children between the ages of six months and 16 years should receive this and parents are urged to see that they do at this time.

The material is furnished by the State Board of Health and our local physicians, Drs. Keyport & Clippert will give their time free of charge so the entire treatment will be free to everyone. Just think what an opportunity to have your children immunized against diphtheria, which takes such a large toll of lives among children every year.

Why parents should hesitate to have their children receive this cannot be explained, as it is harmless. The first dose will be given next Wednesday and the following two, one week apart.

Remember parents next Wednesday, October 30th from 8:00 to 12:00 o'clock, at the school building in room 19.

A NEW LAW FOR SALE OF POTATOES

This regulation provides that all potatoes sold for table stock, unless sold directly from the producer to the consumer, must be graded and tagged with the name and address of the person or firm responsible for the grading and packing, and the grade to which the contained potatoes conform. The grades declared must be either U. S. Fancy, U. S. No. 1 or U. S. No. 2. No potatoes which do not conform to one of these three grades shall be sold for table stock.

U. S. Fancies shall consist of potatoes free from freezing injury, soft rot, insect injury and must be not less than two inches in diameter.

U. S. No. 1 shall consist of potatoes conforming to the regulations as to disease, injury, sunburn, soft rot, freezing injury and dirt the same as in the U. S. Fancies and must not be less than 1 7/8 inches in diameter for round varieties and not less than 1 3/4 inches in diameter for long varieties.

U. S. No. 2 shall consist of potatoes not less than 1 1/2 inches in diameter and conforming to the same requirements of injuries and disease as in the U. S. No. 1 and U. S. Fancies.

Due to the variations in grading, certain percentages are allowable for small potatoes, growth cracks, soft rot, and disease in all of the specified grades.

The grocer when selling said potatoes must label or tag the package as to grade, contents and his own name or firm unless the potatoes are transferred from a properly tagged sack to the container in view of the purchased so that he will know grade he is purchasing.

SAGINAW MASONS TO VISIT GRAYLING

There will be a special meeting of Grayling Lodge F. & A. M. Saturday evening, Nov. 2nd for the purpose of conferring the third degree. The work will be in charge of Ancient Landmarks Lodge of Saginaw of which Lorne J. Douglas is a past master and who will take part in the work. Mr. Douglas was a former Grayling boy and a graduate of Grayling high.

A banquet will be served at 6:00 o'clock, plates for which will be 50c. Members of Grayling lodge should be in attendance and assist in entertaining the visitors.

THURSDAY, OCTOBER 24, 1929

A. B. COOK, state superintendent of hatcheries, was in Grayling last week Thursday on business with the local hatchery. Mr. Cook was appointed to this high and responsible position last winter by Gov. Green in spite of the fact that he didn't know a brook trout from any other kind of trout.

It looked for a time like a rash act. Gov. Green in explanation stated in a letter to the Avalanche that Cook was appointed because of his splendid executive ability and not for his knowledge of the fish hatchery business. The idea of an inexperienced man being placed in a position over experienced hatchery superintendents seemed preposterous.

However time seems to have proven that the Governor was right. Cook doesn't pretend to know it all but he is a keen, capable executive and already has won the favor of the hatchery superintendents and helpers. He plays fair and that is a help in his favor.

It seems to be the practice of some ambitious executives at times to pump valuable information out of the men who are doing the work and then they pass out the information

as tho it was their own ideas. That naturally would anger anyone. The men who, in their research and experience, make new and valuable discoveries, should by right be given the credit for their achievements. The principle of grabbing off credit and glory that belongs to others is unfair. Can we blame some of these men for refusing to hand out valuable information and methods under such conditions? Well, hardly.

Cook is different. He seems to have a human understanding that is going to get him somewhere. We believe he is playing fair with his men and is ready to give credit where credit is due. He wants no personal glory. Results are what he is working for and we believe he is going to make the best superintendent the state has ever had.

MISS MATILDA STEPHAN AND AMOS HUNTER MARRIED AT PRETTY CEREMONY

White roses predominated as the decoration in the home of Mr. and Mrs. George L. Stephan, on the Au-Sable Saturday evening, when their oldest daughter, Miss Matilda Helen Stephan, became the bride of Mr. Amos Hunter, son of Mr. and Mrs. William Hunter. Rev. Allen Schruer of Gaylord officiated at the ceremony, which took place at six o'clock. The bride was attended by her sister, Miss Ruby L. Stephan of Toledo, Ohio, and Mr. George Granger of Lansing acted as bestman. The bride was lovely in a navy blue silk crepe ensemble, with blouse of egg-shell blue, and carried a bouquet of white roses. Miss Ruby's costume was also of blue silk crepe.

Following the ceremony a four-course dinner was served. Mr. and Mrs. Hunter are spending the week here at the home of the bride's parents and will leave Sunday for Durand, where they will reside, the groom having been employed there for some time by a gravel machine concern. The groom is a graduate of Grayling High School and the bride has spent almost her entire life here. Both have hosts of friends who extend congratulations and best wishes.

TRAIN DISPATCHER COMMITS SUICIDE

Harold Thomm of Port Arthur, Ontario, chief dispatcher for the Canadian National railroad company, committed suicide this forenoon by shooting himself through the head with a shot gun. Mr. and Mrs. Thomm, the latter who was formerly Blanche Cardinal had been in Grayling the past several weeks visiting the latter's mother, Mrs. Joseph Fournier, they coming here from Port Arthur in hopes that Mr. Thomm might regain his health. Mr. Thomm had been ailing since early last spring and had spent most of the time since in hospitals and going here and there consulting physicians concerning his ill health.

This morning he arose early and taking Mr. Fournier's shot gun and his pet dog, said he was going to hunt rabbits. When he did not return at dinner time his wife became worried and so Mr. Fournier decided to drive out to where he had planned to hunt, which was near the electric light dam. He stopped his car near the roadside and honked the horn and soon afterward the dog came to the car. Mr. Fournier got out of the machine and followed the dog, who led the way to where his master was lying. Despondency over ill health was given as the cause of the deed.

PIANO TUNING

Will be in Grayling this week. Leave orders with O. Sorenson & Son. M. A. MORFORD.

Local Happenings

Mrs. Esbern Hanson returned from Detroit Monday afternoon.

Allen-A hosiery sale. Save 20%.

Grayling Merc. Co.

Miss Evelyn Hilderbrandt, fifth grade teacher is absent from school owing to illness.

Miss Rosalyn Lewis enjoyed a visit from her sister Miss Gene of Gaylord Monday and Tuesday.

Come and see the fancywork booth at the L. N. L. fair at Oddfellow hall, Oct. 26.

Holger C. Schmidt left last night for Flint to visit relatives and to hunt pheasants for a few days.

Buy shower boots for women and children in black, gummetal and brown at Olson's.

Come and enjoy yourself at the masquerade dance at school gym. Prices: 75c per couple; 25c extra lady. Lunch will be served.

Frank Beckman, who has been ill in a hospital in South Bend, Indiana, for some time returned to Grayling this week.

Mrs. Ralph Routier and son Ralph drove up from Detroit for the week end and were accompanied back by Mrs. H. A. Bauman.

Mr. and Mrs. LeRoy Scott enjoyed a few days visit last week from the former's parents, Mr. and Mrs. O. B. Scott of South Branch.

Harold Schmidt accompanied by Miss Hildebrandt and Miss Arnold attended the Michigan-Ohio football game at Ann Arbor Saturday.

Dr. and Mrs. C. G. Clippert are in Detroit this week attending the Interstate Post Graduate Medical Association of North America meeting.

Mrs. J. E. Bobenmeyer announces that Bob's Place on U.S.-27, that has been closed for repairs for several weeks will be re-opened for business on November 1st.

Don't forget the masquerade dance! Given by the Senior Class, Friday, October 25th at the HI School gym, beginning at 8:30 p. m. Price 75c per couple. Prizes offered.

Mrs. Norton Williams and daughter Mary Jane accompanied by Mrs. James Williams motored from South Branch and spent Monday with Miss Violet Williams and other relatives.

Mrs. Geo. Dekette and daughter Georgianna of Alpena spent a few days visiting her parents and other relatives and friends. Mrs. Dekette will be remembered as Helen Jensen.

Grayling Post 106, beginning Saturday night, Oct. 26 will give their annual feather parties at their hall. These will continue every Wednesday and Saturday night until Thanksgiving.

Dr. and Mrs. C. R. Keyport returned Sunday from New York where they had been attending the annual convention of Michigan-Central surgeons. While in the east they visited the C. M. Morfit family at New Brunswick and found them much interested in Grayling and Grayling friends.

Gus Meyers, who had been visiting Grayling friends, and was about to return to his home in Pontiac yesterday afternoon met with an accident, when his car was hit by one driven by Isaac Gendron in front of the Nash Garage. Gendron was entirely to blame for the accident. Both cars were badly damaged.

The children of Mr. and Mrs. Earl Nelson, Robert and Richard were baptized at their home Tuesday evening by Rev. J. W. Greenwood. The occasion was also the fifth birthday of the oldest son Robert and the evening was celebrated in his honor, the guests including friends of the family. The home was pretty in Halloween decorations and Robert received many gifts.

I am in Chicago this week purchasing stock for my store in Grayling and in Cadillac. I am going to have a lot of very attractive wearing apparel and other goods to offer you upon my return last of this week. Watch for them. You save big money by trading at my stores.

OTTO MILLER, Bankrupt Store.

OBITUARY
David W. Bentley passed away at the home of his daughter Mrs. Wm. Fairbrother, last Thursday night, after a three week's illness. Mr. Bentley had been in the Upper Peninsula when he took ill and returned to Grayling about three weeks ago.

The deceased was born March 17, 1875 in Toronto, Canada, and was a retired butcher by trade. Besides his daughter Mrs. William Fairbrother he is survived by two other daughters, Mrs. Herman Miller Jr. of Higgins Lake, Mrs. Kenneth Johnson of Flint, and three sons George Bentley who resides in the Upper Peninsula and Albert and Clarence of Grayling.

The funeral was held from the Fairbrother home Sunday afternoon, Rev. Greenwood of Michelson Memorial church officiating and rendering the hymn "In the Garden." Interment was in the Frederic cemetery.

VILLAGE ORDINANCE

STATE OF MICHIGAN
SETH LEGISLATURE
SESSION OF 1929

Introduced by Mr. Culver.
Bill No. 293. File No. 236.
HOUSE ENROLLED ACT NO. 129

An act to regulate the use, handling, storage and sale of fuel oil, and the arrangement, design, construction and installation of burners, tanks and other equipment for the burning of fuel oil for heating purposes in cities and villages adopting the provisions of this act. The People of the State of Michigan enact:

Section 1. This act shall be in force and effect in such cities and villages as may, by a majority vote of the legislative body thereof, adopt its provisions. The provisions of this act shall be in force and effect in cities and villages above one hundred thirty degrees Fahrenheit, shall apply only to the use of such fuel oil for oil burners as is specified herein.

Section 2. For the purpose of this act:

(a) "Fuel oil" shall mean any liquid used as fuel and having a flash point above one hundred-thirty degrees Fahrenheit.

(b) "Fuel oil burners" shall mean any device, including burners, motors, piping, valves and other equipment designed and arranged for the purpose of burning fuel oil for heating purposes.

(c) "Tank" shall mean any container for such fuel oil, having a capacity of more than twenty-five gallons and, directly or indirectly connected with such fuel oil burners.

(d) "Auxiliary tank" shall mean any tank, between the storage tank and the burner, delivering oil by gravity or pressure to the fuel oil burner or blower.

(e) "Storage tank" shall mean any tank for the storage of oil, connected through some approved means of suction feed, directly to the fuel oil burner or indirectly connected to the fuel oil burner through approved auxiliary tank.

(f) "Department of buildings and safety engineering" shall mean the department of buildings and safety engineering of such city, or such other department as may be designated by the legislative body thereof.

(g) "Bureau of safety engineering" shall mean the bureau of safety engineering of the department of buildings and safety engineering of such city, or such other bureau as may be designated by the legislative body thereof.

Section 3. Before any fuel oil burners, tanks and other equipment pertaining thereto shall be installed within such city, the owner of such premises or his agent, shall obtain from the permit department of the department of buildings and safety engineering, a permit for the installation of such fuel oil burners, tanks and other equipment, and the use of fuel oil for the operation thereof. Upon issuing such permit the said department shall issue therewith a temporary tag to be attached to the fill pipe of the tank of such equipment until the bureau of safety engineering shall cause such equipment to be inspected, and if found to conform with this act, a permanent metal tag, properly numbered, shall be affixed by the inspector. The owners or occupants of premises on which fuel oil burners have been installed previous to the date on which this act becomes effective shall obtain from the department of buildings and safety engineering within six months thereafter a permit for the storage and use of fuel oil for the operation thereof. Such permit shall be issued by the department of buildings and safety engineering when such fuel oil burners shall have been inspected by the bureau of safety engineering and found to be reasonably safe. The fees for permits required under the provisions hereof shall be designated by the board of rules.

Section 4. No person or persons, firm or corporation, shall supply with fuel oil any tanks or containers for fuel oil burners unless such fuel oil burners and equipment shall have been approved as provided herein and permit tag attached to the filler pipe of such tank or containers in the manner herein specified.

Section 5. Fuel oil for equipment installed under this act shall have a flash point of not less than one hundred-thirty degrees Fahrenheit and no oil or liquid may be used, which when tested in the open air at a temperature below one hundred-thirty degrees Fahrenheit, or below one hundred twenty-five degrees Fahrenheit when tested in a closed cup tester, gives forth inflammable vapor or gas, as determined by the flash point of oil, as tested as required by the department of buildings and safety engineering shall be authoritative. Fuel oil shall not be mixed or blended except at a storage plant under competent supervision, nor shall waste oil be used except with the approval of the bureau of safety engineering.

Section 6. The tests and investigations made by the department of buildings and safety engineering shall cover: arrangement of parts, suitability of material, strength of parts, electrical control, thermostatic arrangement, sensitiveness of automatic features, positiveness of ignition, safeguards against flooding, possibilities of explosion and hydrostatic or air pressure testing of storage tanks.

Section 7. Oil burners shall be equipped with such approved device, mechanical or electrical, which will automatically prevent the overflowing of the burner. Burners shall be designed to prevent excessive accumulation and shall be securely attached and supported.

Section 8. All burners subject to automatic ignition must be provided with permanent automatic device, so constructed that oil, upon being turned into the combustion chamber, will be ignited, or automatically shut off.

Section 9. Standard full weight galvanized iron or steel underground piping shall be used throughout. All tanks shall be tested for leakage and shall be tight at five pounds air pressure. All tanks having a capacity in excess of two hundred seventy-five gallons shall bear the underwriters' label.

space for the compression of the packing. All threaded pipes shall be packed with approved packing, or shellac, or other approved compound. All pipes shall be rigidly supported and protected against mechanical injury. Gas supply pipes must be provided with shut-off valves.

Section 10. Electrical installations used in connection with oil burning devices shall be installed in accordance with the rules adopted by such city and be inspected and approved by the department of buildings and safety engineering.

Section 11. No damper shall be permitted in the smoke pipe or chimney from the device heated that may restrict to a dangerous extent the passage of fumes or gases. Ventilation shall be provided to prevent the accumulation of any trapped vapors below the combustion chamber. Complete instructions in regard to care and operation of the oil burning equipment shall be posted near the equipment installed. The instruction sheet, so posted, shall include the specifications for the gravity and limiting flash point of oil suitable for use in the burner. All cards of instructions must be posted at time of installation. Near the entrance to the furnace room, and so located as to be convenient for use in emergency, there shall be provided a suitable hand extinguisher of approved type.

Section 12. Oil storage tanks on the inside of any building shall be located in the lowest story, cellar or basement. A total storage of five hundred fifty gallons shall be permitted inside of any building, but not more than two hundred seventy-five gallons shall be permitted in any one storage tank. Where more than one storage tank is installed such tanks shall be connected to the main feed pipe leading to the auxiliary tank, or if no auxiliary tank is used, such storage tanks shall be connected with the main feed pipe leading to the burner, with a manually operated three-way valve so that not more than one tank can in any way discharge its contents at one time. In cases where conditions make it impossible to install tanks inside buildings, it shall be permissible to install tanks of larger capacity inside buildings subject to the regulations of section thirteen hereof. Tanks shall be constructed of galvanized iron or basic open hearth steel or wrought iron, not less than fourteen gauge. All joints shall be welded, brazed or riveted. The tanks shall be reinforced with a welded or riveted pad or flange where connections are made. All tanks shall be made tight and tested at five pounds air pressure and with spray water without showing leaks. Tanks shall have rigid and unobstructed support and shall not be located less than five feet, measured horizontally, from any fire or flame, and shall be placed on an incombustible floor. Glass gauging devices, or any others, the breakage of which will permit the escape of oil shall not be used. Fuel oil shall not be forced from such storage tanks by positive air pressure.

Section 13. The fill pipe for such tank or tanks shall be galvanized iron or steel not less than one and one-half inches in diameter, extending to the outside of any building, and shall be properly capped at all times. All storage tanks for fuel oil shall be provided with a vent pipe not less than three-fourths inch in diameter with a turn back on the open or exposed end, and the outside opening of such vent pipe, or manhole in outside tanks, shall be covered by a non-corrodible wire screen of thirty by thirty mesh; Provided, however, that vent pipe of such storage tank inside of any building shall terminate on the outside of the building, not less than ten feet above the source of supply, and that vent pipes from underground storage tanks outside of any building shall not be less than one and one-fourth inches inside diameter and shall terminate not less than two feet above grade line. The vent pipe from two or more tanks may be connected to one upright provided they be connected at a point at least twelve inches above the source of supply.

Section 14. Except as otherwise permitted in this act, the storage of fuel oil in excess of five hundred fifty gallons shall be outside of any building in underground tanks. Storage of oil in tanks above ground of more than five hundred fifty gallons shall not be permitted without special permit from the board of rules of the department of buildings and safety engineering.

Section 15. Tanks located underground shall have the top of tank at least three feet below the surface of the ground, and below the level of the lowest pipe leading into the building to be supplied. Tanks may be permitted underneath a building if buried at least three feet below the lowest floor, or they may be placed twenty-four inches below the lowest floor and covered with fifteen inches of earth and nine inches of brick or concrete.

Section 16. Where it is impractical to bury tanks, the chief inspector of the department of buildings and safety engineering may allow them to be installed outside a building when completely incased in twelve inches of concrete and six inches of sand.

Section 17. Underground tanks located within ten feet of a basement or pit lower than the top of such tank, shall be completely incased in six inches of concrete of one, three and five mixture.

Section 18. Measuring devices on tanks beneath buildings and previously described encased tanks, shall be of approved wall gauge type.

Section 19. The metal used in all tanks shall be of a minimum gauge, U. S. standard, depending upon the capacity or size as given in the following table:

Capacity (Gallons) Thickness of material
1 to 500 14 gauge
501 to 1100 12 gauge
1101 to 4000 7 gauge
4001 to 10500 5/8 inch
10501 to 20000 5/16 inch
20001 to 30000 1/2 inch

Section 20. All such tanks shall be welded, brazed or riveted and shall be heavily coated outside with asphaltum or other rust-resisting material. All tanks shall be tested for leakage and shall be tight at five pounds air pressure. All tanks having a capacity in excess of two hundred seventy-five gallons shall bear the underwriters' label.

Section 21. All oil burners operating on gravity or water pressure, shall be equipped with approved automatic device or devices for the control of the flow of oil in case of failure of the oil to properly ignite. All oil burners of the suction or force

feed type shall be equipped with approved anti-siphoning device. Where a pump is used between the storage tank and the auxiliary tank a pressure relief valve shall be installed in the supply line, so arranged as to return any surplus oil to the storage tank. Suction pipes must extend to the bottom of the tank and must be provided with an accessible control valve inside the building between the tanks and the burner. All pipe connections, except for gravity flow, shall be made from the top of the tank.

Section 22. All fuel oil burners used in connection with hot water and steam heating systems shall be equipped with a pressurestat or some approved automatic device to reduce or extinguish the fire in the event of undue pressure within the boiler.

Section 23. The use of acetylene or any other gas possessing a wider range of explosiveness in admixture with air than coal gas, or water gas, is prohibited for use in the gas pilot of any fuel oil burner.

Section 24. This act shall not apply in the case of manufacturing plants except for heating buildings or generating steam for power.

Section 25. Any person, firm or corporation who shall violate any of the provisions of this act shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined not to exceed one hundred dollars, or by imprisonment for a period of not to exceed ninety days, or by both such fine and imprisonment, and each day that a violation of this act shall be permitted to exist shall constitute a separate and distinct offense.

This act is ordered to take immediate effect.

Lorane Sparks, C. W. Olsen,
Clerk, President.

GIVE CHILDREN GOOD HABITS

Three things to give children: Health, education, and good habits. By habits we mean conduct which results in honesty, industry, and a desire to improve themselves. If parents give their children this foundation they should be able to look after themselves.

A Texas man who hasn't yet heard that the United States is dry sent in a check for nine dollars the other day to a mail order house for four quarts of whiskey. This proves the old saying that what you don't know won't hurt you.

HARD WORK

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

It was by the sweat of his brow that our first ancestor was to work out his salvation.

Hard work was to be the discipline which should raise him to a higher state. We are using every possible means these days to get away from it. Labor-saving devices are heralded on every side. Glaring colors and broad-

faceted type announce on nearly every magazine page some new invention which will push hard work to the wall and make it unnecessary for one to exert himself either physically or mentally. If one knows how to set the machinery in motion he need not have to do a lick of work.

We are getting quite accustomed to the automatic-stoker-which-eliminates any attention to the furnace excepting occasionally to rake out the ashes and to see that the supply of coal does not become depleted. The gasoline engine does almost every task today which was once accomplished through hard physical labor. It has not yet been taught to get the children out of bed and put them into their clothes, but there is no end to the possibilities of the future. Some time-saving and labor-saving machine is put on the market every day, and it seems only the matter of a few years until we shall have to do nothing more strenuous than to press the button or turn on the current. Short working hours, and easy work, and higher wages is the paradise to which we all look forward.

In education, as well, the general tendency is away from hard work. The easy road toward a definite end is the one most sought. Text books emphasize the fact that a minimum amount of effort will be necessary to comprehend the subject matter as presented within their pages. Students must be pleased, interested, aided constantly along the road from which every possible abstraction has been removed. If it is possible to get out of work we do it.

I am wondering if such a realization would be a good thing. Life may be made too easy mentally and physically for the best development of the individual. An athlete would be quite unlikely to get anywhere if he did not work regularly, and if he did not regularly, also, push his muscles to the limit of their powers. There is little training of the brain if it is never subjected to hard persistent difficult thinking. The boy who loafs along mentally never forcing his mind to the accomplishment of some unpleasant or difficult task will never have a trained brain.

No one has ever gotten far without hard work. The labor-saving device—mental or physical—may rob a man of the power and development which comes only from strenuous and persistent exercise. One of the outstanding men of the country talking to a group of young men at their college graduation said:

"What I have accomplished in the world, I have done through hard work. I do not know anyone who has done anything worth while in the world who has not worked hard."

He spoke the truth.

CHEBOYGAN PLANE HARVEST FESTIVAL

Cheboygan is planning its second Annual Harvest Festival for October 30 and 31. Last year's observance was so outstanding a success that the residents of the city are entering with enthusiasm into preparation for this year's affair. A queen will be elected as was done last year. The observance will be under the direction of the Booster's Club.

SUCCESS IN SAVING MORE A MATTER OF WILL POWER THAN ABILITY TO EARN

(By S. W. Straus, President American Society for Thrift.)

Many persons excuse themselves from practicing thrift on the plea that they cannot save anything and maintain a good standard of living. While it may be true in some cases that temporary circumstances make it impossible to get ahead in the world, those instances are exceptional.

The old saying, "Where there's a will, there's a way," is particularly applicable in the matter of saving money. Those who do not save or who think they cannot are not fair with themselves. They are unwilling to make certain sacrifices. Their minds are biased by false pride or egotism. Their viewpoint is incorrect. If they should think the problem clear through they would determine to find ways by which they could save something even though the amounts be small.

Upon one's ability to find such ways of saving money, depends very much of one's chances of success in life.

This is a phase of the matter that should be given the deepest consideration. Also it should be borne in mind that those who are not sufficiently interested in their own welfare to lay by a certain portion of their earnings for the future do not care enough about real success ever to achieve any substantial place in the affairs of men.

Before there can be success there must be a desire to succeed. And this desire must be so deep that it overcomes every barrier.

Students of economic conditions in this country tell us that poverty is steadily being eliminated through the processes of education. There was a time within the memory of many now living when dire poverty existed in every city if not in every community. The general standard of living has been steadily advancing for the last fifty years and conditions are such today that there is hardly a person anywhere who is not in a position to save money if he so chooses.

ANOTHER STATE SANATORIUM

The tuberculosis sanatorium at Howell, Michigan's only state institution for the treatment of tuberculosis, today is qualified better than ever before to promote recovery from the Great White Plague. The new addition to the sanatorium, opened this year, has practically made over the once antiquated hospital. The improvements planned for the future should raise the institution to a still higher plane.

The improved conditions at Howell are typical of the latest strides toward providing proper care for its tuberculosis sick that Michigan has been making within recent years. Not only has the state sanatorium expanded. A similar broadening of facilities has been the case in practically every county able to support a sanatorium of its own. As a result Michigan has available at the present time in the neighborhood of 2,950 sanatorium beds.

Yet there is no cause for complete satisfaction in these figures. All of Michigan's approved sanatoria are located either in the southern half of the upper peninsula or the western half of the upper peninsula. The remaining sector—the eastern portion of the upper peninsula and the northern portion of the lower peninsula—stands as a perpetual reminder of the inadequacy of the state's sanatorium facilities. Statistics gathered by the Michigan Tuberculosis Association indicate that there are over two thousand living cases of tuberculosis in this area. Between 200 and 250 deaths occur in the region annually from this cause.

A state sanatorium in the northern portion of Michigan is needed. Only through the establishment of such a sanatorium can the needs of this portion of the state be met. Only then will proper care be made available for the many patients who, now, rather than go to Howell, attempt and often fruitlessly, to secure an arrest at home. It is to be hoped that the advisability of constructing such a sanatorium will be kept in mind when plans are laid for future additions to the state's institutional equipment.

Important to BUYERS OF NEW CARS

FROM time to time General Motors has devoted its messages in this paper to giving facts which help the car-buyer get full value for his automobile dollar. In keeping with that policy of frankness, this message gives facts about the prices of new cars which every one should know.

This is the standard price tag used by General Motors dealers to show what makes up the delivered price of their new cars.

LIST PRICE (F.O.B.) \$ 222.12
FREIGHT and DELIVERY 22.00
DELIVERED PRICE \$ 244.12
ACCESSORIES (also included in the List Price)
TOTAL DELIVERED PRICE \$ 244.12

These prices are for cash. Purchases may be financed on convenient monthly payments if desired.

WHEN you buy a new automobile, it is the delivered price that you actually pay.

The delivered price consists of the list price of the car—the f. o. b. price advertised by the manufacturers—plus certain other charges which the dealer makes.

You should know exactly what those charges are and what each one is for.

There is no mystery about the charges added by General Motors dealers. They have adopted this standard price tag, which tells you everything. Nothing is hidden. There is no extra charge to permit a seemingly better trade-in offer. No extra charge to cover advertising or any other item. You know exactly what makes up the difference between

the list price and the delivered price. Each charge made by the dealer is fair and reasonable.

Use this tag for reference. Make it your guide in comparing automobile values. For the delivered price is the price you really pay.

Below is given the range of list prices for each General Motors car. They are just as low as General Motors' vast production, centralized purchasing and reasonable profit per car can make them. General Motors dealers maintain this value in their delivered prices of these cars and show you every item on the standard price tag. Look over the General Motors line. Then clip the coupon.

"A car for every purse and purpose"

CHEVROLET \$245-\$695. A six in the price range of the four 7 models.
PONTIAC \$745-\$895. "Big six" luxury at low cost. 7 models.
OLDSMOBILE \$875-\$1035. The Fine Car at Low Price. 6 cylinders. 8 models.
MARQUETTE \$965-\$1035. Buick's fine new companion car. 6 models.
OAKLAND \$1145-\$1375. The All American six. 9 models.

VIKING \$2595. General Motors' new "eight" at medium price. 3 models.
BUICK \$1125-\$1595. The greatest Buick of them all. 14 models.
LASSALLE \$1295-\$1875. Companion car to Cadillac. 14 models.
CADDILLAC \$1295-\$7000. The Standard of the World. 16 models.
(Base prices—f. o. b. factories)

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES
OF THE AVANCEMENT OF 23 YEARS AGO.

Thursday, October 25, 1906

Mrs. C. W. Amidon was called to Orosco last week by the serious illness of her brother-in-law, J. E. Figg, which resulted in death the 18th inst.

Miss Johanna Hanson book-keeper at Sorenson's took her vacation with friends in Detroit, having a most enjoyable outing.

G. F. Becraft, of Kingston, Tuscola County, has entered into co-partnership with A. J. Stillwell, under the name of Stillwell and Becraft, and will continue the Livery and Sale stable. Mr. Becraft brought up two good teams with him to add to the stock.

It is reported that the three best sugar factories in Bay City will more than double their output of last year. The yield of beets is better, the acreage larger and the percentage of sugar the largest ever, many fields showing 6 per cent.

Candidates for office are making this a hustling campaign, though mostly "Gum Shoe" work, but we are proud of our whole people from the fact that thus far we have heard of no mud slinging or disreputable methods of either side to support. All seem to be the gentlemen that we believe they are.

Isaac Lamont started yesterday to go to the upper peninsula where his brother Frank is.

F. O. Peck and Miss Gladys, came home from a pleasant ten days outing in Montcalm County last Monday.

Miss Mabel Redhead, teacher in the 5th grade of our school, went home for a visit Saturday and Sunday.

Miss Frieda Niles returned from a three weeks vacation with friends in Kent and Ottawa counties yesterday.

Three of the finest Shropshires ever in Michigan came by express to N. Michelson, for his farm last week.

Fred Sleight and wife were down from Johannesburg last week on account of the Havens-Marvin wedding.

Hubbard Head-of-South-Branch was in town last week with a friend from Illinois who has been looking over this section of the earth and was well pleased.

The East Jordan girls will be here next Monday evening to get beautifully beaten at basketball in the opera house. There will be a world of fun.

E. T. Waldron came up from his home in Arenac County Tuesday, for a visit with his brother "Dan," and old friends, the first time since he moved away, five years ago.

Mr. Laur was down from Gaylord last week.

THE "BABY MARTIN" AUTO-MOBILE

By Erwin Greer
(President Greer College of Aviation, Chicago, Ill.)

The "Baby Martin" automobile we are told, will be sold by mail and will come in a weather-proof packing case that can be used as a garage.

Not much bigger than a go-cart, with a wheelbase scarcely more than half as long as the smallest car now being produced in this country, it will fit nicely into narrow openings along the curb where no other car could be parked. And, if we are to believe its inventor, James Martin, of the Martin Airplane factory at Garden City, Long Island, his baby will not consume gasoline much faster than the average human baby consumes milk. It will do fifty miles on a gallon of gas.

An automobile and a garage for \$2.00. At such a figure, the family of four or five might adopt two of these babies, or twins, with two garages, so that they could carry the whole family without crowding. And if they had a blowout or puncture on the road and discovered that the jack was left behind, they would not seek assistance but lift up the wheel of their infant while the tire was being changed.

The car, in effect, consists of a body with an engine in it, and four wheels. There is no chassis or chassis frame. Each wheel is independently mounted in the re-inforced body, and there are no axles in the usual sense of the word.

Neither are there any springs. Rubber "aviation cord" is used in the suspension of each wheel—instead. This is the cord made of rubber under tension, which is used for the suspension of airplane wheels. It permits each wheel to take the bumps independently of the three others. Thus road shocks are not imparted to the body itself. In technical language it means the elimination of "unsprung weight."

The wheels are kept under the control of power and steering mechanism by universal joints in their hubs.

It is said the "Baby Martin" will make 60 miles an hour.

HONESTY

The need for honesty cannot be overestimated. Most of us are honest in big things, but there are many who are not so scrupulous in small matters. There is, for example, the man who robs his employer of time by failing to observe working hours or wastes the time of others in not being punctual in keeping appointments.

The salesman who fails to be at the buyer's office punctually at the appointed hour, labors under a self-imposed handicap before he starts his solicitation. In the final analysis, being honest is simply showing proper consideration for the property of others whether it be time, money, or goods. L. A. Downs, President Illinois Central System.

The wife who drives from the back seat may be annoying, but how about the husband who cooks from the front porch or the dining room.

WHY LEAVES FALL

Kent, O., Oct. 22.—The falling of autumn leaves is the annual sign that Mother Nature has made provision to save her trees from dying of thirst during the winter.

This explanation, which may serve to soothe the ruffled feelings of home owners who are now busy raking up the leaves, comes from Martin J. Davy, president of the Davy Tree Export Co.

"On the average tree there are several acres of leaves—literally millions of them," Davy said. "Every leaf gives off water. But during the winter the tree's roots absorb very little moisture. Consequently, if the leaves remained on the tree and continued to tap the water supply, the tree would soon die. So Nature sentences the leaves to death."

The process used by Nature to make the leaves fall is complicated. Weeks before the first frost she begins to extract from the leaves all the food substances which the leaves manufacture and which the tree needs, and gradually the leaves wither.

Simultaneously, a thin-walled layer of cells is formed at the base of the leaf where it is attached to the twig. This layer is a zone of weakness so that eventually the leaf falls of its own weight or is blown off by the wind.

The year left in the falling leaf is well protected by Nature. It immediately becomes covered with a substance which is practically waterproof. Since the bark of the tree also is almost impervious to water, the entire tree is practically bottled up for the winter.

Davy said that the long drought last summer was responsible for the early falling of the leaves in many sections of the country this fall. Nature hastened the leaf-dropping process, he said, so that the tree would not be robbed, through evaporation, of the sap vital for its existence.

SIMPLICITY

The spirit of simplicity is a great magician. It softens asperities, bridges chasms, draws together hands and hearts. The forms which it takes in the world are infinite in number; but never does it seem to us more admirable than when it shows itself across the fatal barriers of position, interest, or prejudice, overcoming the greatest obstacles, permitting those whom everything seems to separate to understand one another. This is the true social cement that goes into the building of a people. Charles Wagner.

Konjola Brought Amazing Relief To Sufferer

Entirely Free of Stomach Trouble
After A Year of Intense Suffering

MR. IVAN RICHARDS

"Indigestion pains and gas bloating were a daily occurrence, and after every meal there was always a heavy feeling in the pit of my stomach," said Mr. Ivan Richards, 6395 Woodmont Ave., Detroit, Mich. "These gas pains would often center in the upper part of my back and I would suffer dreadfully for more than a half hour. Sharp pains would also strike me under the short ribs on both sides."

"The first relief I had in a year came when I started on the second bottle of Konjola and from then on I improved rapidly every day. My appetite increased and everything I ate digested perfectly. I no longer suffer from the gas pains in my back and sides and that heavy feeling in my stomach disappeared. I am free of headaches and dizzy spells and my nerves are considerably stronger, thanks to Konjola."

Konjola is sold in Grayling, Mich., at the Mac & Gidley drug store and by all the best druggists in all towns throughout this entire section.

The old fashioned clinging vine type of girl used to hang on to her sweetheart's arm every time she crossed the streets between the wagons and carriages. But the modern flapper doesn't even grab her boy friend's arm when he takes his curve at fifty miles an hour.

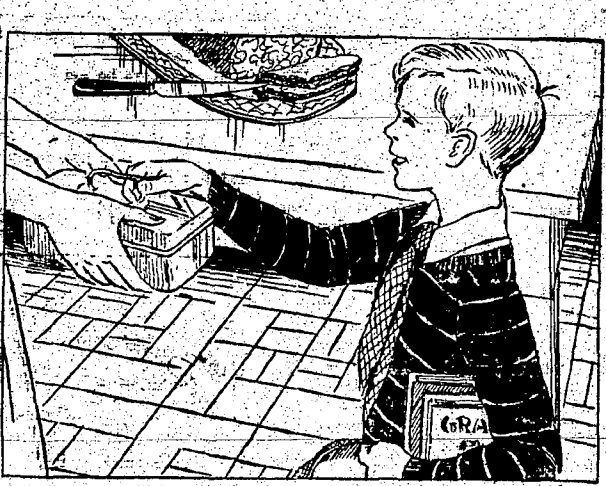

Few wives believe that their husbands have to work at night.

Thomas Won't Mislaid This Pen

Thomas McClure of Washington, D. C., got tired of fountain pens which run out of ink at inopportune moments, and so bought the novel and heroic instrument which he is shown here using. McClure admits it is a bit large to carry in one's pocket; but on the other hand it is easy to find on his desk.

For the School Lunch Box

With September and the beginning of the school year the struggle begins to fill the lunch box with food which will keep well, be appetizing and at the same time be economical and healthy.

In this class falls the popular pea put up in a sanitary enamel lined can to preserve its color perfectly. Peas are economical of both time and money, and the protein combined with the carbohydrate, vitamins and mineral salts which the little green pellets contain makes them an excellent part of a rather substantial lunch box meal.

Some Ways to Use Them

A particularly suitable food for this purpose is Pea and Walnut Roast. To make it, mix the following together lightly: one and one-half cups of pea pulp, one cup of

soft bread crumbs, one-half cup of chopped walnuts, one-fourth cup of butter, two-thirds cup of canned tomato soup, one slightly beaten egg and salt, pepper and onion juice to taste. Put the mixture in a buttered baking dish or loaf pan and bake in a moderate oven, 350° F., for 30 to 45 minutes or until set and brown. This may be served at the family dinner, then, when cold, sliced, the slices wrapped in waxed paper, and packed in the lunch box.

Peas in salads are always popular with child and mother. A salad made of a cup of peas, a cup of diced boiled potatoes, one-half cup of diced pickled beets and one tablespoon of chopped onions may be mixed with mayonnaise and put in a waxed paper cup with a tight-fitting cap. Gelatin salads may be packed in the original mold.

The Care of Your Money

HELPING YOU TAKE CARE
OF YOUR MONEY

If you have been following "The Care of Your Money" series as it has been running for several weeks in this publication, by this time you should have acquired a background of fundamental financial and investment information.

The facts you have read and remembered should be of immense value to you. With the safeguards of sound investment, you can safely invest your money. Investment problems should be much easier to solve. Now you have a basis for meeting a security salesman at least half way. Now you intelligently can discuss and analyze the proposition he offers you. If you recall the basic facts, Straus Brothers Investment Institute has been emphasizing as regards safe and profitable investments, you should be able to place your surplus funds into the wisest possible investment channels.

Perhaps many of the readers of this paper have missed some of the articles in the series, or have merely glanced through them. For those who would like to review all the articles so far issued, we have prepared a reprint of the series, which we will send to anyone requesting it free of charge. Send your request to the Institute, Room 640, Otis Building, Chicago.

Further and more advanced articles will be published in future issues of this paper from time to time. Some mighty interesting subjects have been prepared for the future. Watch for them, read them, plan your investment program with the facts you glean in mind, and you will be well on the way toward worry-free financial independence.

Bladder Irritation

If functional Bladder Irritation disturbs your sleep, or causes Burning or Itching Sensation, Backache, Leg Pains, or muscular aches, making you feel tired, depressed, and discouraged, why not try the Cystex 48 Hour Test? Don't give up. Get Cystex today. Put it to the test. See for yourself how quickly it works and what it does. Money back if it doesn't bring quick improvement. Try Cystex today. Only 60c. Mac & Gidley, druggists.

UNITED STATES DEPARTMENT OF THE INTERIOR

General Land Office
Washington
Sept. 19, 1929

TO WHOM IT MAY CONCERN:

Notice is hereby given that the State of Michigan has selected the following described lands with a view to acquiring title thereto in exchange for other lands which the State proposes to convey to the United States, as authorized by the Act of July 31, 1912 (37 Stat. 241).

Crawford County, all north and west of the Michigan Base and Meridian:

SE $\frac{1}{4}$ NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 2, NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 4, T. 26, R. 1, E $\frac{1}{2}$ SE $\frac{1}{4}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 2, SW $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 12, T. 26, R. 2, S $\frac{1}{2}$ Sec. 8, E $\frac{1}{2}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, S $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ Sec. 18, NW $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ N $\frac{1}{2}$, S $\frac{1}{2}$ Sec. 20, W $\frac{1}{2}$ SW $\frac{1}{4}$ Sec. 22, NE $\frac{1}{4}$ Sec. 28, N $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 30, NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, E $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 34, T. 27, R. 1, E $\frac{1}{2}$, E $\frac{1}{2}$ SW $\frac{1}{4}$ Sec. 12, SE $\frac{1}{4}$ NE $\frac{1}{4}$, W $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, S $\frac{1}{2}$ Sec. 14, N $\frac{1}{2}$ N $\frac{1}{2}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 20, E $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$, W $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 22, S $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 24, NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 30, T. 27, R. 2.

Protests or contests against the selection of any of said lands for any reason will be received in this office at any time before final approval and certification of such selection.

(Signed) Thos. C. Havell,
Assistant Commissioner.

MORTGAGE SALE

Default having been made in the conditions of a certain mortgage made by Wort Heath, a single man, to Nickolin Schjotz, dated the 1st day of November A. D. 1927, and recorded in the office of the Register of Deeds for the county of Crawford, and State of Michigan, on the 23rd day of November A. D. 1927, in Liber G of mortgages, on page 218, on which mortgage there is claimed to be due at the date of this notice, for principal and interest, and taxes due, the sum of two hundred two and ninety-eight hundredths dollars, and an attorney's fee of thirty dollars, as provided for in said mortgage, and no suit or proceedings at law having been instituted to recover the moneys secured by said mortgage, or any part thereof.

Notice is hereby given, that by virtue of the power of sale contained in said mortgage, and the statute in such case made and provided, on Saturday the ninth day of November, A. D. 1929, at 10 o'clock in the forenoon, the undersigned will, at the front door of the Court House in the Village of Grayling, that being the place where the Circuit Court for the county of Crawford is held, sell at public auction, to the highest bidder, the premises described in said mortgage, or so much thereof as may be necessary to pay the amount so as aforesaid due on said mortgage, with seven per cent interest, and all legal costs, together with said attorney's fee, to wit: Lot three of block two, of Salling and Hanson Company's Addition to the Village of Grayling, in the Village of Grayling, Crawford County, Michigan.

Dated, August 15th, 1929.

NICKOLIN SCHJOTZ,
Mortgagee.

Merle F. Nellist,
Attorney for mortgagee,
Grayling, Michigan.

STATE OF MICHIGAN The Probate Court for the County of Crawford.

At a session of said court, held at the probate office, in the Village of Grayling, in said county, on the 9th day of October A. D. 1929.

Present: Hon. George Sorenson,
Judge of Probate.

In the matter of the estate of Jens Peter Jensen, deceased.

Andrew Jensen, a son of said deceased having filed in said court his petition praying that said court adjudicate and determine who were at the time of his death the legal heirs of said deceased and entitled to inherit the real estate of which said deceased died seized.

It is ordered, that the 4th day of November A. D. 1929, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is further ordered, that public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Crawford Avalanche, a newspaper printed and circulated in said county.

GEORGE SORENSON,
Judge of Probate.

SAILING THE SEAS

Big Paulo and little Gretchen ran up and down the beach, for sail breezes from the ocean would have nipped their hands and faces quickly enough had they stood still.

Suddenly Gretchen saw out over the ocean, a group of moving, glimmering lights.

"See, Paulo!" she shouted. "Lights! Is it a ship passing?"

"Aye," answered Paulo. "Would you like to pretend something, Gretchen?"

"Oh, yes, Paulo."

"All right, lass. We'll make believe many, many years have slipped away. We'll journey back thousands and thousands of years

and look at ancient ships of many lands. Already now? All aboard!"

Paulo had been to sea once upon a time. He knew much of ships and sailor men, and as he stood pointing outward over the dark night sea he told Gretchen of the ships that you find here.

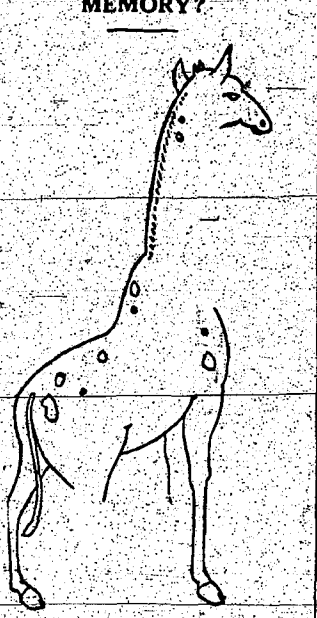

"See, Gretchen," began Paulo, "far out there on the sea, sails an ancient Grecian warship. One great orange and yellow sail in the center, one small one over the bow and one middle-sized one over the stern, carry it swiftly on its destructive errand. See the two sharp points on its bow. Those are to ram an enemy ship. Down in the vessel, where you cannot see, are more rowers, all slaves chained to their places and forced to work hours without rest. A man with a whip walks back and forth among the slaves watching for any slow or lazy ones.

And what a strange, fantastic vessel is this next one! A Viking ship! In one of these ships it is said, very daring adventures journeyed even before Columbus was born. See, it is steered by a huge oar fastened to the sternboard side. You've heard of the starboard side? Long years ago it was the "steerboard" side on the side upon which the steering oar was placed. How splendid are the war-flowing shields hanging in rows over the side of the ship! They look like large round buttons, from a distance, but close by, you can see their beautiful designs.

"Go on, Paulo," whispered Gretchen, "please go on—What ship is that?"

"Just appearing above the horizon," continued Paulo, "it is a Venetian

HOW GOOD IS YOUR MEMORY?

Here is an unfinished picture. Can you finish it accurately?
—Harvey Peake

Argus. It is built of finest woods and rigged with silken sails of gay and varied colors. Rich nobles and merchants spend hundreds of dollars trying to outshine their fellows in magnificent rigging. Galleys slaves are again at work, not because their strength is needed, but because the merchants think that the more oars they can display, the finer will be their ship. On the forward deck we see a striped tent in which, perhaps, the merchant displays his most valuable wares or the nobleman who sails grandly. In this, his floating palace, finds a pleasant shelter.

What is this beautiful vessel sailing so swiftly, with sails full set, toward us? An American clipper, noted the world over for speed and dazzling spread of sails! Not all clipper ships are painted ones, but plain, strong, white ones of canvas that will catch and hold the most feeble breeze. See, Gretchen, this ship has cabins and it is built to cut through the water in record

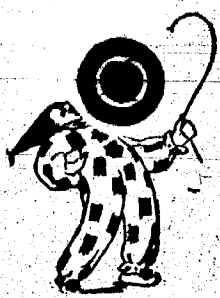

time. No make-believe splendor about this one, but only strength and swiftness like the wind itself—one of the first ships to be built for long voyages.

How different it is from the little Chinese junk with awkward muzzling sails and lost sides inviting every wave to dash over them. John Chinaman doesn't care about his sails, however. They are quite all right to carry his cargo.

He goes up and down the rivers. The breeze makes a strange musical sound as it plays against the strips of matting, and such heavy loads are carried that the little low ship travels very slowly and lazily along its way.

And now comes a strange sight, in deed! The little sails over bow and stern are not in use at all. They seem to be there only in case they should suddenly be needed. A large wheel at one side of the boat turns over and over, pushing it on its way. Smoke rises in black clouds from a smoke stack. It is the brave little Clermont.

Playing its way along the river, its steam power is so new and untamed that it could not venture on the ocean, but it is proud to show this much of change and progress. Sometimes it must use its sails when the engine won't work just right, but wait, Gretchen, a few more years pass by and another ship looms before us.

News Briefs

THURSDAY, OCTOBER 24, 1929

Mr. and Mrs. Earl Wood of Bay City spent the week end in Grayling. Be wise—immunize against diphtheria.

Doll contest starts soon. See the next issue of the Avalanche. Mac & Gilday.

Mose Blondin of Mackinaw is spending a few days visiting at the home of his sister, Mrs. Dan Hoelsi. Don't forget the baked goods booth at the L. N. L. fair at Oddfellow hall, Oct. 28.

Miss Genevieve Montour was home from Ann Arbor visiting her parents for a couple of days the last of the week.

Your children's opportunity next Wednesday to be immunized against the dread disease—diphtheria.

A. R. Craig went to Flint Wednesday to purchase an automatic bread wrapper for use in the Grayling bakery.

The Ladies Aid Society of Michelson Memorial church will meet with Mrs. O. P. Schumann Friday, Nov. 1st.

Watch for the National League fair and chicken supper, Saturday, October 26th.

Warm dry feet is good health insurance. Prices reasonable at Olson's.

Mr. and Mrs. T. P. Peterson and family are leaving today for Vassar where they will spend the remainder of the week.

Miss Evelyn Lovely accompanied Dick Kearns to his home in Ann Arbor Saturday to visit relatives returning Sunday night.

Mrs. Harold Millard of Flint and Theodore Sivrais of Cheboygan visited at the home of their parents, Mr. and Mrs. Simon Sivrais Sunday.

T. W. Hanson returned last week Thursday from a business trip to the Upper Peninsula where he was looking up some of the timber interests of Salling Hanson Co.

A mid-winter frolic dance is being planned by the nurses of the Grayling district to be given on New Year's Eve, Tuesday, December 31st at the High School gymnasium.

Snow flurries Wednesday morning, but one would have to look sharp to notice it. Nothing showing on the ground. It looks as the winter was just around the corner.

Harold, the five year old son of Mr. and Mrs. Theodore Sivrais passed away at their home in Cheboygan Oct. 13, after a five days illness of scarlet fever. The funeral was held Oct. 14.

Mr. and Mrs. J. E. Fletcher and granddaughter, Audree Hewitt, of Lansing and Mr. and Mrs. Charles Hewitt and son Fletcher Charles of Detroit visited Mr. and Mrs. George Schaible at the military reservation from Friday until Sunday.

The Ladies National League will give their fifth annual fair, chicken supper and card party Saturday afternoon and evening, October 26th at the Oddfellow hall. Supper from 4:30 to 7 o'clock. The card prizes will be \$1.00 each to each lady and gent holding the high scores.

Mr. and Mrs. McGuire Dupree of Bay City were here a couple of days this week visiting friends. They are planning to return to Grayling to make their home in the near future, having purchased the David LaMotte property on Charles street on the south side.

Mrs. Clarence Brown of Bay City visited at the home of Mr. and Mrs. P. L. Brown from Friday until Monday. Clarence Brown spent Saturday at the home of his parents. Other guests at the Brown home were Mr. and Mrs. Ed. Strehl and family of East Jordan who were here Sunday.

Fred Harrington and little son of Sanford and his daughter Mrs. Ralph Kleinhans of St. Louis were guests at the M. A. Bates homes Monday and Tuesday. Mr. Harrington was here in the interest of his mother's estate, the late Annie E. Harrington, the old family home on Ogemaw street having been destroyed by fire early Sunday morning.

Mrs. Andrew Beck returned home from Saginaw Friday where she had accompanied her mother Mrs. George Craft. Russell Beck and Herbert Craft, Russell Beck and Herbert Craft brought Mrs. Craft back to her daughter Mrs. Andrew Beck's, where she is making her home.

Stanley Matson is feeling pretty good over having successfully passed his state pharmacist examination and now is a full fledged druggist. These examinations are getting harder every year and now in order to pass one has to have a good knowledge of medicines besides drugs. Stanley had his early training under Mr. McNamara and "Mac" says he is the most able apprentice he has ever had. He is working in Flint and with this advancement will go, of course, an increase in salary. The home people are always pleased at the success of their boys.

The annual meeting of the nurses of the Grayling district was held at Mercy Hospital, Tuesday, with election of officers for the coming year. The following were chosen to fill the various offices: Miss Irene McKay was re-elected president; Miss Emma Hendrickson, vice president; Miss Helen Corwin, secretary (re-elected); Miss Louise Sorenson, treasurer; board of directors: Mrs. Johanna Gorman, Mrs. Eva Carlson and Mrs. Rose Ahman, Saginaw. There was a good attendance of nurses and they enjoyed a delicious lunch served by Mrs. Gorman, Mrs. Corwin and the sisters. Mrs. Anna Christman of Cheboygan and Mrs. Rose Ahman of Saginaw came from out of the city to be in attendance. At this time a dancing party was planned to be given on New Year's Eve.

When you think of rubbers think of Olson's.

Winter apples. See advertisement on page 2. B. C. Gilbert.

Buy your shower boots and rubbers now at Olson's.

George Stanley of Pontiac is spending a few weeks here.

Ernest Hoelsi is visiting Miss Beatrice Cottle at Rudyard, Michigan. Sam Smith is enjoying a vacation from his duties as clerk at the Schlotz grocery.

A. E. Martin and Edward Mayotte of the Avalanche force spent Sunday in St. Ignace.

The finest assortment of wool socks for men has just arrived at Olson's. Prices right.

Keith Wheeler and Ray Jermain of Pontiac were here Tuesday looking for employment.

Call and see all the new bargains on our bargain rack. 5 and 8 dollar slippers for \$1.98 to \$2.95 at Olson's.

Carl Hanson of Flint visited his uncle and aunt Mr. and Mrs. Lars Rasmussen over Sunday.

The new VICTOR RADIO is here. Come in for demonstration. Central Drug Store.

Be sure and bring the kiddies to the fishpond at the L. N. L. fair, at Oddfellow hall, Oct. 26.

Ernest Olson and wife of Pontiac were here over the week end visiting the former's parents, Mr. and Mrs. N. P. Olson.

Clarence Johnson, Miss Fern Armstrong, and little Patricia McKenna returned Monday from a few days visit in Detroit.

Mr. and Mrs. Richard Wanderlich of Lewiston were guests of Mr. and Mrs. Alex LaGrow and Mr. and Mrs. Walter Nadeau Sunday.

Immunize against diphtheria and have all your fears put aside. Next Wednesday from 8:00 to 12:00 at the school building—Room 19.

Mrs. Ida K. Reuse and little son and Mr. Guggenheim of Oxford are guests at the home of Mr. and Mrs. Leo Jorgenson this week.

Mr. and Mrs. E. H. Webb of Mt. Pleasant arrived in Grayling last week Thursday to spend the winter at the home of their daughter, Mrs. C. G. Clippert and family.

Don't forget the masquerade party at the Beaver Creek town hall Saturday night, Oct. 26. Remember that prizes will be given to the best dressed lady and gent.

Don't forget to have your costume complete for the masquerade dance given by the Seniors. Those who are not in costume are asked to remain in the balcony until the prizes are offered.

There will be a full choir at Michelson Memorial church next Sunday. This fine feature together with one of Rev. Greenwood's excellent sermons completes a most pleasing church service. Morning service is at 10:30.

Miss Emma Hendrickson went to Bay City the fore part of last week, where she was joined by Mrs. Roy Billings and they motored to Detroit where they spent the remainder of the week. Miss Emma returned to Grayling Saturday.

Mr. and Mrs. Elzie Cote and daughter, Miss Betty Lou of Midland visited at the homes of Mrs. Cote's brother and sister, Thomas Cassidy and Mrs. Louis Kessler the last of the week. Mr. Cassidy accompanied them to Midland Sunday.

Hans L. Peterson returned home from Ann Arbor Friday accompanied by Miss Bessie Colvin who is a guest of his sister Miss Martha Peterson of Maple Forest for a couple of weeks. Miss Colvin at one time taught in the Maple Forest schools.

The annual meeting of Grayling Board of Trade will be held Tuesday evening, Nov. 19th. Let's help to increase the membership for next year. The Board is doing good work and it needs the support of the public. Dues are only \$7.00 per year. Every property owner should be willing to contribute that much in support of this needed community work.

Mrs. Ernest Borchers, Mrs. W. J. Heric, Mrs. Tracy Nelson and Mrs. Herbert Gothro entertained at the home of the former last Monday evening in honor of Mrs. Carl Nelson. Bridge and "500" were enjoyed for which prizes were given. Mrs. Clarence Brown of Bay City, who was an out-of-town guest receiving the guest prize. The hostesses served a delicious lunch and the guest of honor was showered with many pretty gifts.

Fire destroyed the old family home of the late Mr. and Mrs. John S. Harrington on Ogemaw Street early last Sunday morning. It was not discovered until it had gotten quite a start, and the efforts of firemen were fruitless in trying to save it. There was no one living in the house at the time and as yet the cause of the fire has not been ascertained. The house was covered by insurance.

Mrs. Wilbur Simpson was hostess to her club Thursday afternoon. There were a large number of ladies present. Mrs. Chas. Harvey gave away a lovely pillow top, Mrs. William Laurant being the winner. Games and visiting were enjoyed. Prizes were won by Mrs. Oscar Smith and Mrs. Wilbur Simpson Sr. Late in the afternoon a delicious lunch was served. The club will meet with Mrs. Axel Larson at her home Thursday afternoon.

The funeral of Mrs. Grace H. Vallad, wife of Norman Vallad of Houghton Lake, was held in Grayling Wednesday afternoon at one o'clock, with services at Michelson Memorial church. Rev. J. W. Greenwood had charge and Mrs. Herbert Gothro and Miss Louise McAllister rendered a couple of hymns very nicely during the service. Mrs. Vallad passed away at the home of her sister in Lansing Monday. The deceased is survived by her husband, two sisters, Mrs. Hazel Vallad and Mrs. Blanche Ferris and two brothers, Herman and Sherman.

PERSONAL NEWS

Mr. and Mrs. Charles Marker were called to Lansing last week to the funeral of a nephew, John Hodson.

Ray Armstrong's family moved to Midland last week.

Erve Roe now occupies the house back of the schoolhouse, built 29 years ago by Medius Charron.

Mrs. Ray Hopkins and children of Walled Lake, and Floyd Goshorn and daughter of Grayling were here last Sunday to see Grandma Flagg, age 88 years who has been very poorly the past week. She is improving some and is staying with Mrs. McCracken while her daughter Mrs. Batterson is in the hospital at Ann Arbor.

Mrs. McEvoy of Grayling was a Sunday caller in Frederic.

Mrs. John Burke's mother has been on the sick list for the last week.

Mrs. James Tobin is in Detroit this week.

Our Indian summer caught cold Monday night.

Mrs. Ace Leng is visiting friends and relatives in Flint and Detroit.

Elmer Corsaut who is employed at Royal Oak, Mich., is spending a week with his family here.

Erve Roe has bought the property of Mrs. Sarah Lewis and will take possession soon.

The remains of William Bentley were laid to rest in Oakwood cemetery Sunday. He lived here a few

years ago and will be remembered by many friends.

Ladies Aid of the M. P. church will serve supper in the dining room of the high school on Thursday evening, Oct. 31 for the benefit of the pastor Rev. Earle. Price: adults 35c; children 25c. Now please don't forget the date. We will start early and serve until late.

Mr. J. W. Downer of Lansing was the guest of Miss Esther M. Barber over the week end.

Lewis Shorts, while playing Monday evening, had the misfortune to fall and cut his arm quite badly but was dressed by Mrs. Scott Stammler and is getting along nicely.

Contrary to the statement in last week's Avalanche in regard to S. D. McClain, he is a resident of Grayling and not of Frederic.

NOTES AND COMMENTS

Grayling belongs to its citizens, and will be what they try to make it.

You can't judge the size of a man's bankroll by the size of the automobile he drives.

The nice thing about Indian summer is that you don't have to be an Indian to enjoy it.

The trouble with always having an open mind is that the wind is liable to fill it with rubbish.

LIGHTS OF NEW YORK

Van Populi

Not long ago a newspaper polled its readers as to whether New York should have Sunday theatrical performances. As it stands now, Sunday theaters are barred by law, but the movie stage presentations and vaudeville shows get by under the guise of sacred concerts. They prove they are sacred concerts and not commercial enterprises by not distributing programs. As I was saying, this newspaper printed ballots on which the readers could mark an X for yes or an X for no. There was a deluge of replies—but scores of supposedly intelligent New Yorkers were wide of the mark. They did not realize what the ballot was for, and they didn't seem to know that Sunday shows have always been banned in their own city.

Visiting Firemen

I wonder what was the origin of the phrase, visiting firemen—meaning lit and run tourists who must have the aid of permanent residents to see the town right. I first heard of visiting firemen in Paris, and many the v. t. that I entertained there. They ask you to do the strangest things. But to a friend of mine has fallen the opportunity of doing what I consider the strangest of all tours—an out-and-out. This girl, who works in a publishing house and is a successful short story writer, was called upon to entertain a woman who might very well have been the little old lady from Dubuque. This little old lady comes from an illustrious family whose name has been prominent in New York ever since the days of the big rum deal for Manhattan Island. And what must she do but choose the hottest day of the summer to visit, with her friend's help, the graves of all her ancestors! She has a book of the family history, and the tour began at the old Trinity churchyard and ended, hours later, in the far reaches of the Bronx.

Our Sea Lion

The sea lion in the Central park zoo is a clever member of the fair sex, and I enjoy watching her outwit the crowds. She has, of course, much less privacy than a goldfish, for, being a happy creature with a sense of humor, she draws great throngs to the fence around her bath. Much of the time she disports herself for their benefit, swimming, sporting and yapping for joy. But occasionally she yawns for peace and quiet, and when she does, she lies on the cement bank of her pool for a sun-bath. Her body catches all the healthful sun's rays; but she sticks her head, ostich fashion, into the water, covering eyes and ears. That denotes the sound of the chatter about her.

Big Girls Wanted

Girls are simply out of luck here if they are not tall. Show girls, Florenz Ziegfeld informs me, are going to be bigger and taller than ever. Only he puts it this way: American girls are growing bigger and taller, so there is nothing else to do but use them in the show business. But even in business stature is a deciding factor. A restaurant chain advertises for "Hostesses, age 20-30. Tall, attractive young women. Permanent, worth-while positions for those who qualify." Nothing is said about mental requirements. Be tall, and let those who will be intelligent. Clothes models get their jobs by their stature, rather than by beauty of face or experience.

School for Bums

Across the way from Cooper Union, Dan O'Brien, self-named king of hoboes, is conducting a school for teaching "the art of depending upon one self when not supported by our economic system." King Dan stands ready to teach all he knows about being a weary Willie to acrobats, working stiffs, shovel stuffs, scenery tramps and even hitch-hikers. The curriculum includes methods of traveling on freight and passenger trains, hitch-hiking, finding the most likely place to sleep, cooking mulligan and finding the ingredients, hobo language and the art of staying out of jail. (C. 1929, Bell Syndicate.)

Facies Odd Charge

Milwaukee.—Driving a steam roller while intoxicated was the charge preferred against Robert Pette, after his seven-ton steam roller had left its path of new asphalt, climbed a curbing and rolled relentlessly over sidewalks, flower beds and lawns.

Literature Short Cuts

Out Shiner of Manning

It all depends upon how you say it. There was once a clergyman by the name of Twitchel. In the pulpit he maintained a gravity of manner and expression, but out of the pulpit was a regular fellow. Occasionally he would if the emergency required, introduce something queer in a sermon for the sake of arousing the attention of the congregation.

One Sunday, seeing that his hearers were becoming sleepy, he paused in his sermon and said: "Brethren, you haven't any idea of the sufferings of our missionaries in the new settlements, on account of the mosquitoes. The mosquitoes in some of these regions are enormous. A great many of them would weigh a pound, and they will get on the legs and bark when the missionaries are going along."

By this time all ears and eyes were open and he proceeded to finish his discourse. The next day one of the church members called him to account for telling lies in the pulpit.

"There never was a mosquito that weighed a pound," he said.

"But," replied the minister, "I didn't say one of them would weigh a pound; I said a great many, and I think a million of them would."

"But you said that they barked at the missionaries."

"No, no, brother; I said they would get on the legs and bark."—Boston Herald.

Relics of Wesley in House Where He Died

Wesley's house in the City Road, London, adjoining the chapel of which he laid the foundation stone in 1777, has been converted into a museum of interesting relics of the famous preacher. Here may be seen his bedroom as it was when he died there on March 2, 1791. In the room is his beautiful Chippendale furniture, one article of which, a massive bureau with curious secret drawers, has been valued at many thousands of pounds, apart from its associations. Adjoining the bedroom are his praying closet and his study, the latter a spacious apartment, also furnished in Chippendale. Here are preserved his preaching gown of flowered brocade, his riding shoes and stirrups, and many other personal belongings, including the pen he was writing with when he lay dying.

Opossum's Pouch

The opossum is the only American animal that belongs to the class of marsupials or pouched animals. There are usually two litters a year, and from five to fourteen to a litter. According to the investigations of Dr. Carl Hartman of the University of Texas, an authority on the subject, the young are born undeveloped or in embryo form and crawl by their own efforts into the pouch of the mother. There they remain for 65 to 75 days, never leaving the pouch and depending entirely upon the mother. Even after they are able to provide for themselves and leave the pouch, they may return there or may attach themselves to the mother's hair or tail.

Feather Trapped Thief

Few women have "broken the bank" at Monte Carlo, but of those who have done so—the most amazing was Baroness Grober—she did so twice in one evening! As she left the tables and started walking toward the restaurant, two hands shot out from behind some ferns and clutched her by the throat, while her ostrich-feather handbag was snatched. Detectives could find no trace of the thieves.

Later, in the restaurant, she caught sight of a single ostrich feather on the leg of a man's trousers. He and his companion were searched, and the baroness' winnings were found in the girl's stocking.

Sportsman

A Londoner, a strong swimmer, was spending a holiday at La Touquet. He bathed each day at a part of the coast generally considered to be dangerous. He noticed that on every occasion a Frenchman on the shore watched him with gloomy interest. One day the Saxon broke silence.

"You like to see me swim?" he asked.

"Mais, non," the other shrugged. "But here they pay five francs for the recovery of a body."—Sporting and Dramatic News.

Treatment for Botulism

Botulism is poisoning from infected ripe olives, preserved fruit and vegetables. The symptoms and treatment, according to the Red Cross textbook on first aid, are similar to ptomaine poisoning. The person afflicted becomes sick at the stomach. His skin is cold and clammy, his pulse weak and there are severe pains in the abdomen and often eruptions of the skin. The treatment is to administer castor oil or epsom salts and a teaspoonful of charcoal, and send for a doctor.

The Moral

Guide—Here you see the waistcoat worn by Lord Nelson at the battle of Trafalgar. The bullet that ended his life went through this hole here.

Nelson (to his charges)—Just take a lesson from that, children. If that hole had been mended at the proper time the bullet could not have gone through it, and he would still be alive today.—Weekly Scotsman.

A prize Guernsey calf was sent from Syracuse, N. Y., to Arkansas by aeroplane. Doubtless the driver of the plane enjoyed a number of high bows while enroute.

A Harvard professor says that the students don't learn to read and write English while in college. Well, why should they? That's what we send them to the common schools for.

An Invitation

FOR THE SEVENTH YEAR THE

Top O' Michigan Potato & Apple Show

WILL BE HELD AT

Gaylord, Oct. 30-31 & Nov. 1, 1929

Each year has shown progress in quality and quantity of exhibits until it is now considered the outstanding show in the United States.

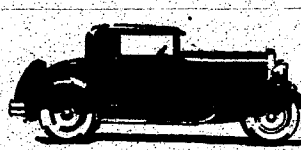

New facilities for taking care of the Show at the 4-H Club buildings make unlimited room for exhibits, machinery and banquet.

Each day will be full of education, competition, and inspiration. The annual banquet will be held THURSDAY evening.

The Directors urge you to attend.

Top O' Michigan Potato Association

Autumn Salads

WITH autumn come the popular fall fruits and vegetables—apples, beets, cabbage, carrots, and so on. And with fall comes the holiday season, with parties happening thick and fast. So the enterprising housewife is on the alert for recipes which can be used either for home or for company use. The recipes given below are for salads which utilize autumn foods in novel and delicious ways.

Some Tempting Recipes

Sparkling Salad: Soak two table spoons of gelatin in two tablespoons of water and dissolve in one-third cup of boiling water. Add three tablespoons of vinegar, two tablespoons of lemon juice, one-third cup of sugar and one teaspoon of salt. Chill, and add two cups of lime-flavored carbonated beverage, one cup of shredded cabbage, one and one-half cups of well-drained, canned

peas and one-half cup of diced celery. Chill in molds and serve on lettuce with mayonnaise.

Beet and Pepper Salad: Chill and drain the contents of an eight-ounce can of beets. Add two large green peppers, finely shredded. Toss with French dressing flavored with minced chives and parsley. Serve on lettuce and garnish with capers.

Cranberry and Cabbage Salad: Crisp in ice water, drain and dry two cups of shredded cabbage. Mix with one cup of diced, sliced pineapple, one-half cup of salted peanuts and one-half cup canned cranberry sauce. Moisten with mayonnaise and serve in lettuce cups.

A combination of canned peas, diced apples and diced celery, marinated and then moistened with mayonnaise and garnished with walnuts also makes a most appetizing fall salad.

Grizzly Grows Scarce in Pacific Forests

Olympia, Wash.—There are about five adult grizzly bears left for as many lucky hunters in this state, according to a recent census of forest rangers, and probably four or five more in other Pacific coast states. In the West, where the grizzlies once ruled the mountain forests, civilization has all but exterminated the creatures.

There is material in the life story of the dwindling species upon which to base an epic or to keep a writer of animal fiction supplied for years. Bears are being made to interest congress in legislation to protect the few remaining specimens.

Father Sage Says

The average man never wants to admit unless he is absolutely certain of his inability to lick the other fellow.

CURE FOR RECKLESS DRIVING

A good cure for reckless drivers would be to make them financially responsible for the damage they inflict, instead of letting the automobile insurance companies foot the bill. We do not mean that this should be done through compulsory insurance laws, but by taking legal action against this class of drivers and through a court order compel them and not the insurance companies to make good whatever loss their reckless driving incurred.

A case of this kind recently came to light in Shiawassee county. The owner, whose big, fine car had been damaged by a reckless driver could have collected damages from the company in which his car was insured. But he did not elect to follow this almost universal course. Instead he had the young man arrested on a charge of reckless driving. In court the fellow was placed on probation with the understanding that he should make good the loss. He was also made to pay the court costs.

A few cases of this kind and reckless driving would be lowered to a minimum. It is only when he feels that he is immune from responsibility that the reckless motorist cuts loose out on the traffic lanes. He will regard it as an entirely different matter if made to pay for the results of his folly. And eventually the cost of automobile insurance would be lowered.

The old saying that figures won't lie and the girls would surely have a hard time making 'em lie the way they dress these days.

Princess Elsa Bernadotte, niece of King Gustaf of Sweden and daughter of Prince Oscar Bernadotte, enjoying a row with her fiance, Hugo Cedergren, secretary of the Stockholm Y. M. C. A. and a commoner.

CHEVROLET SIX

—the Car of Universal Appeal!

SINCE January 1st, over a million one hundred and thirty-five thousand six-cylinder Chevrolets have been produced. Naturally, this is an outstanding industrial achievement. But it is more than that. It is a great public endorsement of Chevrolet's policy of progress: to build a quality automobile whose design incorporates every possible feature of progressive engineering... whose beauty is distinctive, smart and satisfying... whose reliability is assured by fine materials and precision manufacture... and whose price is so low as to be within reach of the great majority of the people. We want you to know what this policy has meant in the development of the Chevrolet Six—the modern car of universal appeal. We want you to know that Chevrolet has brought within the reach of everybody, everywhere, all the advantages of smooth, six-cylinder performance. Come in today!
